WHAT THE JUNIOR REPUBLIC NEEDS AND HOW IT WILL GET IT.

The Fund Is Progressing, but Much More Money Is Required, and Journal Readers Are Depended On to Furnish It.

Coney Islanders Have Subscribed Over Four Hundred Dollars in Cash, Besides Opening Their Shows for the Fund on the Big Day.

The Junior Republic is a miniature republic which is carried on by poor boys and girls who have gone into the country to get a chance to The citizens are none of them over seventen years old. They elect their own Legislature, make their own laws and enforce them. They earn their own money and pay their own bills. They are farmers, mechanics, contractors and laborers of all sorts. They have carried on their little Republic successfully for two years. The Republic started this year with 200 citizens, and 200 more will be added to-day. The organization would like to take in still more, but it is poor. The Journal believes that such a courageous and practical enterprise should be encouraged by every American who believes in his country and who is interested in the making of good citizens.

Everything is looking promising for the | that living in the fresh country air, eating

That is natural enough, but inst think to help it carry out this plan of practical of the children of the tenem in such weather as that of the pa ek! Of course, you would rather not a trip to the part of the pa of the children of the teneme weather as that of the paand see the misery there; t you would hardly be satisfie making yourself as comforts us rather feel that we owe the world more than merely ing out of it. That feeling v tainty if you ever looked o of the poor in midsummer.

them. Give yourself a day or a of pleasure and do something for he children of the poor at the same .ime The next one of these affairs Republic Day, next Wednesday, Island. The showmen and the have combined to make it a g: Everything is looking promising for the Junior Republic, and if the people of New York, great and small, will only think of the little ones of the tenements, the \$20,000 necessary to make the Junior Republic what it ought to be will be soon raised.

Yes, the weather is hot. With all the electric fans and comfortable dices and houses you feel that you can hardly live from day to day. Your own existence is a torment. You do not want to be bothered about anything outside of your own affairs. That is natural enough, but int think the liking in the fresh country air, eating wholesome food and sleeping in decent been downloaded to make it a g'. Fifty cents will buy a ticket to the island and give admission to of the best shows. Buy a bunch or You may not want to go yourself, Summer in the bottest and most unhealthy part of, New York.

The scheme is not utoplan. It has been tried on a small scale and found perfectly practicable, and to make it possible the Journal is frying to raise this money, and it depends on the kindness of its readers to them.

Nearly all the shows on the isl included in the big ticket are doin thing for the Junior Republic. No of them will give their entire received that day.

Next Wednesday is Journal Jun public day at Coney Island, and towing list is an indication of the 1 snown in the monster restimonial Coney Islanders. This amount will added to the fund until August 12 They are needed at once.

Show people and others have kindly given benefits for the fund, and quite a number of benefit performances are yet to be held, but more money is needed than will come from the Summer resorts and from the theatres. If one-tenth of the people who read this appeal should each send in a hollar the money would be more than raised at once, Probably most people will think that the Junior Republic is a good institution and worthy of help, and in a hazy will determine to do something

shows on the Island, for fifty cents, were issued last week, and have met with a good sale.

Steve Brodie, who is always to the forewhen any philanthropic project is on foot, was one of the first to respond to the call for assistance in disposing of tickets, and one of the sights of Junior Republic day will be the bridge jumper at the head of a procession of fifty boys and girls whom he will take to Coney Island next Wednesday and give the time of their lives. And the youngsters will be right in the swim, for extra attractions will be offered, and every effort will be made by the showmen to please and entertain the little ones.

An attraction on the big 50-cent Journal ticket that will please and amuse the big as well as the little folk is the eldoloscope, in the Novelty Theatre—a bleeyle parade, a wrestling match and a wonderfully life. The London Zoo, next to the eldoloscope, in the Novelty Theatre—a bleeyle parade, a wrestling match and a wonderfully life. The London Zoo, next to the eldoloscope, in the Novelty Theatre—a bleeyle parade, a wrestling match and a wonderfully life. The London Zoo, next to the eldoloscope, in the Novelty Theatre—a bleeyle parade, a wrestling match and a wonderfully life. The London Zoo, next to the eldoloscope; the luxuriant Venetian gondolas and Rankin's lee raliway, where you rush down laclines and around curves at lighting speed over real ice, are open for the fund on Junior Republic Day.

All this and many more interesting and delighting things are free to the holder of the Journal tickets.

CATARRHAL DEAFNESS.

Here is another patient who for years had been a sufferer. Every fresh cold seemed to stay longer than former colus, and he noticed that his ears got stopped up and his hearing became duller and duller, and there were ringing and buzzing noises in his ears. The Catarrh had passed upward and backward from the throat along the Eustachian tube leading from the throat into the ear. He had visited throat doctors and ear doctors and Catarrh doctors without relief. In this condition we find him inhalling the never-falling medication, and soon he notices a charge. The noises in the ears stop, there is no more discharge, the hearing gets better and finally the tubes of the ears open up and something seems to give way in his head. His hearing has completely returned. No wonder he considers the result a marvel. colds, and he noticed that his ears got

BRONCHIAL CATARRH.

Here is another patient who was always sensitive to the weather. He contracted Catarrh of the Head, and it passed to his throat, then down the windpipe and into the bronchial tubes. He coughed at night so that he could not sleep; there was pain behind his breast bone and under the shoulder blades. When he coughed le brought up a frothy, grayish material streaked with blood. He lost appetite and strength. He tried cough syrups and different medicines to no avail. He now breathes in with full inspirations the restoring and soothing medicine. The sore spots along the bronchial tubes heal, the cough ceases, the pain leavs. The appetite and strength return. He is again a well and happy man.
